

Dimas Saputra

Software Engineer

Jakarta, Indonesia · dragdimas9@gmail.com · linkedin.com/in/infinitedim · infinitedim.dev

SUMMARY

Software developer with nearly three years of professional experience, specializing in cross-platform mobile development with Flutter. Currently building and maintaining a B2B travel agent platform at PT Voltras International, with hands-on experience across the full development lifecycle — from mobile UI to API integration and production deployment. Outside of work, actively developing personal projects using Rust/Axum and Next.js to broaden backend and web expertise.

WORK EXPERIENCE

Software Developer

PT Voltras International · June 2023 – Present · Tangerang, Indonesia

Developed and maintained cross-platform mobile applications for a B2B travel agent platform serving multiple booking verticals including train tickets, event ticketing, and internal enterprise systems. Engineered a reusable seat mapping system adaptable across multiple layout types — cinemas, airplanes, trains, and buses — significantly reducing development time for new booking flows. Implemented role-based access control with dynamic menu configuration served via CDN, improving system flexibility and reducing deployment friction. Collaborated with cross-functional teams in an agile environment, contributing to code quality standards through consistent use of version control workflows and maintainable architecture patterns.

Web Content Writer

PT Qtera Mandiri · January 2021 – April 2021 · Jakarta Utara, Indonesia

Produced SEO-optimized web content for a technology company during a 4-month internship, developing articles across three distinct writing styles within a single content theme. Demonstrated adaptability in tone and audience targeting, balancing technical accuracy with accessibility for non-technical readers.

EDUCATION

SMK Boedi Luhur

Computer and Network Engineering (TKJ) · 2019 – 2022 · Bekasi, Indonesia

Graduated with distinction in core technical subjects including Programming, Network Systems, and Infrastructure Administration. Built a strong foundation in both software development and network infrastructure that directly supported professional growth as a developer.

SKILLS

Programming Languages: Dart, JavaScript, TypeScript, Rust

Frameworks & Libraries: Flutter, React.js, Next.js, Axum

Tools & Workflow: Git, GitHub, Docker, VS Code, Husky, Commitizen, ESLint, Prettier

Observability & DevOps: Kubernetes, Grafana, Loki, Prometheus

UI & Styling: Tailwind CSS, ShadCN UI

Other Skills: RESTful API Integration, State Management (get_it, Riverpod), Cross-Platform Development, Role-Based Access Control

LANGUAGES

Indonesian: Native or Bilingual · English: Intermediate
